The Best Way to Find a Local Tradesperson – Fast, Reliable, and Right From Your Phone

When it comes to finding a qualified tradesperson you can trust, whether you have a quick leak that requires a plumber, an electrician for a home upgrade, or a builder for your latest project, it can feel like a bit of a gamble.

SubbieUK is changing this process. We have built an app to connect you to qualified tradespeople in your local area at the touch of a button, saving you lots of time, effort, and uncertainty. Here are some tips on how to find the best local tradesperson and why using an app like SubbieUK is the sensible way.

Start with recommendations but go digital

Recommendations from friends, neighbours, or even colleagues are great. Ask them what tradesperson they have used. However, this could take time, so if you don't find the right fit quickly, go to your phone. Within a few taps, SubbieUK will help you find a network of verified local tradespeople, look at their reviews, and send them a request for a job through the app.

You will waste less time scrolling through sites, clicking links, or calling around

Use a dedicated tradesperson app

Providing your details to a general listing platform that may have hundreds of tradespersons looking for work can be confusing, unreliable, or out of date. SubbieUK is specifically designed for one purpose – connecting people with skilled local trades.

This app gives you:

That's all of that in one app, from the palm of your hand!

Check Credentials - Instantly!

Through the Subbie UK app, you'll have access to each tradesperson's profile and see their qualifications, experience, and insurance details upfront. Whether you're hiring a

Gas Safe engineer, a NICEIC electrician, or a fully insured builder, finding and checking their credentials without the hassle of time-consuming phone calls or a myriad of emails will make life a lot easier!

Request & Compare Quotes on the Go

One of the main frustrations of hiring a tradesperson is getting a transparent and fair price. SubbieUK allows you to request a quote from multiple professionals at the same time and directly from the app. You'll see side-by-side comparisons and can ask questions or seek clarification in-app before you make your choice.

That's time saved from the perspective of your hectic lifestyle, and potentially money saved too!

Look for Responsiveness and Professionalism

An effective tradesperson doesn't just perform quality work they are also communicative, punctual and treat your place with respect. SubbieUK's review system is a good way to find professionals with those qualities in abundance. You can even message professionals directly using the app and keep a conversation going, ensuring clear communication from the get-go.

Review Their Work

Many tradespeople on SubbieUK will upload images of previous work to their profile. This is a great way to get a sense of the style and quality of a tradesperson's work before you commit. You can also leave a review when the job is completed—helping others like you make educated decisions.

Use an App that Secures your Job in one place with Transparency

When on larger jobs, it helps to have a digital record of your communications. Through the SubbieUK app, you have the capability to save job requests, a quote agreement and all of your communications in one place. Then, everyone is informed about the scope, budget and time frame.

Why SubbieUK is the smarter choice

Finding a tradesperson doesn't have to be difficult. With the SubbieUK app, you have a powerful tool at your fingertips to locate trusted, local tradespeople—quickly and with confidence.

You won't have to guess. You won't be left waiting. Only the best tradespeople—ready, when you are!

Download SubbieUK today and take the stress out of hiring.
